

02.02.00 Environmental Policy

Form Ref: SMS

Revision No: 4

Revision Date: 2 jan 2025

Page No: Page 1 of 1

The Company owns and operates tanker vessels in and between ports around the world. Our cargoes are inherently dangerous to the environment. Therefore, it is our duty to do all we can to operate our vessels in the most safe and environmentally sound manner at all times.

Management and staff at all levels are committed to prevent pollution and to continuously improve operations and systems in all we do. To this end, we implement an environmental management system according to ISO 14001:2015. Management reviews the system on a regular basis.

We will comply with all legal requirements applicable to our operations. We will follow requirements from our charterers, insurers and class.

We strive to implement recognized industry best practices relevant to our business.

We communicate in an open, timely and factual manner. We employ a non-blame culture as there is no better way to learn as an organization.

We encourage anybody to report any deficiency regarding safety and environmental issues. One way of doing this is through our web page "Open Reporting". Reports can be made anonymously.

We use clearly defined objectives and targets to fix our environmental position and plot the course ahead. We are truly committed to zero spills.

We educate our staff in accordance with the company ["Training Policy"](#).

Management, officers, ratings and shore employees will lead by example in all safety and environment related issues.

This policy, applies to all offices and vessels owned and/or managed by Company and to all employees. It is prominently displayed in public areas on the vessels and offices as well as our public internet page.

Yours sincerely

.....
CEO
Alba Tankers ApS
